OCTOBER 24, 2018 (4 hours) Lone Star (Bank) University, Pharr, TX

Sign in = 7:30 am Course starts at 8:00 am

“Why do good people do bad things?” we often ask ourselves. Yet faced with similar circumstances, would we have made the same choice? This course provides a look into ethical philosophies for both our personal and professional lives and discusses the values upon which our choices are based. Ethical behavior is more than mere knowledge of right and wrong but making the right choices for our profession and organization. The public looks to us as a standard of ethics and integrity and the Texas State Board holds us accountable for protecting the CPA brand. Are we meeting these obligations?

Course Learning Objectives:

In this interactive and thought-provoking session participants will have the opportunity to:

- Explore the foundations and philosophies of ethics
- Understand the Texas State Board’s Rules of Professional Conduct and the core values of our profession
- Practice applying ethical judgment in making choices appropriate for the profession and the public
- Identify the components and red flags of fraud
- Determine improvement opportunities for protecting the brand

This course is designed to meet the Texas State Board of Public Accountancy’s (TSBPA) Ethics Course Requirement for Licensees for four hours of continuing education. It also satisfies the annual ethics requirement for the Association of Certified Fraud Examiners (ACFE).

Prerequisites = None

Level = Intermediate
